

RGT-HC Hatch Cover Sealing Tape

Description

RGT-HC Hatch Cover Sealing Tape is specially designed for sealing the metal hatch interface on the transport ship, based on the elastomer SBS polymer modified asphalt and with aluminum film as the upper surface. It is the premium solution for waterproofing ship's hatch covers and protection of valuable cargoes.

Advantages

- Cold construction: one paste is ready to use, no open fire, no adhesive; Energy saving, environmental protection, low carbon, economy.
- High elongation, durability and tear resistance, excellent shear strain.
- Excellent adhesion performance, long-term viscoelastic state, ensure the integrity of
- waterproof layer.
- Excellent low temperature resistance.

Application

It is specially used to protect the metal hatch cover of the transport ship, protect the cargo from water leakage and damage.
