

## RGT-BR Butyl Rubber Waterproof Tape/Band

### Description

RGT-BR Butyl rubber waterproof sealing tape is made of butyl rubber coated aluminum film, using the latest patented technology, through a special process produced by the environment-friendly solvent-free sealing adhesive material. It is a quick and effective method of sealing and repairing that produces a lasting protection in all climates.

### Advantage

- 1) Excellent mechanical properties: high bonding strength and tensile strength, good elasticity and extension performance, strong adaptability to the shape change and crack of the interface, and good ability to trace the shape change of the substance.
- 2) Stable chemical properties: It is equipped with excellent chemical resistance, weather fastness, and corrosion resistance.
- 3) Reliable application performance: excellent binding property, water resistance, leak tightness and low-temperature resistance, and high stability in size.

## Application

- Roofs - around chimneys and skylights, over joints & cracks in tiles and roof cladding.
- Exterior walls - joints and cracks in asbestos cement sheeting, cracks under masonry ties and anchorages, around wall penetrations (such as water pipes), gutters and down pipes.
- Terraces - at joints between terraces and exterior walls, joints in parapets, roof edges, sides, flashing and joints.
- Car industry, repairing of roof and cars.
